WORK EXPERIENCE

Full Stack Web Developer Intern | iLearnings.

Jun 2024 - Aug 2024

- Developed responsive landing pages using HTML, Tailwind CSS, and React.js.
- Created web pages for training programs on Salesforce, Data Analysis, Python and Career guidance with the founder.
- Improved front-end development skills and met project deadlines.

Graphic Designer Intern | SoftMaji Infotech.

Jun 2023 - Sep 2023

- Cloned the "FeeFlow.in" website using HTML, CSS, and JavaScript.
- Managed blog posts through the WordPress Admin Panel.
- Designed mockups, social media posts, and video reels for marketing.
- Listed products on e-commerce platforms like Meesho and Flipkart.

PROJECTS

Personal Portfolio | *JavaScript, React.js, Tailwind CSS*

[GitHub](#) | [Live](#)

Developed a fully responsive personal portfolio website using JavaScript, React.js, and Tailwind CSS. Implemented a black-and-white theme with modern design techniques to enhance user experience.

Todo Manager | *JavaScript, React.js, Tailwind CSS*

[GitHub](#) | [Live](#)

A responsive Todo List app built with React and Tailwind CSS. It allows users to create, edit, and delete tasks, with offline support via local storage, ensuring todos are saved and reappear when the app is reopened.

Triangle Calculator | *JavaScript, HTML, Tailwind CSS*

[GitHub](#) | [Live](#)

This website enables users to create triangles by providing inputs and calculates properties such as area, perimeter, and semi-perimeter. It uses JS events and canvas functions like drawing lines and calculate angles.
